REALISTIC
GOALS

STRONGER LOCALLY – STRONGER NATIONALLY

Active in our region
and in our municipality
of Schengen.

Close to the people,
with their concerns
and ideas.

Our local political work is directly influenced by the credibility of national politics and the results of the national elections. A strong national policy strengthens our local presence – and strong local sections give new momentum to the national level.

LOCAL AND NATIONAL – A STRONG CONNECTION

The credibility and
results of the national
elections have a direct
impact on our local efforts.

Good results at the
national level strengthen
our municipalities
and communities.

Together, we build a Luxembourg that works –
in our regions and in all parts of the country.
